The Role of the Blessed Maha Chohan

His title means the “Great Lord” and his mission is to focus the flame of the Holy Spirit on our behalf as the representative of the Holy Spirit for us.

He is the Guru and Lord of
the Lords of the Seven
Rays.

It is the Maha Chohan's work to assist us in receiving the Holy Spirit, the Spirit of Truth, by creating a climate within us to accept truth. He teaches us how to be "born again"—to change from focusing on our humanity to realizing our divinity.

His desire is to imbue us with God's power, wisdom, love. He is the initiator of the 8th ray chakra, the chakra of integration, located in the secret chamber of the heart.

Embodiments of the Maha Chohan

Homer

- Blind from birth
- Believed by the Greeks to be the first and greatest of the epic poets
- Most remembered as the writer of the *Odyssey* and the *Iliad*
- Birth and death not specifically known—1102-850 B.C.E. range
- Ascended master tradition tells us he was able to convey comfort to life. His heart chakra and ability to emanate divine love were very developed

Devout Shepherd in India

- The Maha Chohan's final embodiment
- Time frame unknown
- He was able to anchor in his being so much heavenly light that he kept the flame, held the balance, for millions of people.
- He gained his mastery by consecrating his four lower bodies as a chalice for the flame of the Holy Spirit.

Receiving the Holy Spirit

- **One way:** A gradual infilling with permanent gains due to the constancy of the soul in offering devotion and through spiritual practices, a heart of forgiveness and service to others.
- **Another way:** A sudden infilling due to the faith and fervent pleas of the soul. Over time though, the intense light, the holy energies may lessen due to distractions of the material world and a lack of awareness of the necessity to live a more disciplined spiritual life.

Gifts of the Holy Spirit

According to I Corinthians 12: 8-10:

Wisdom

Knowledge

Faith

Healing

Miracles

Prophecy

Discerning of spirits

Speaking in tongues

Interpretation of tongues

Hinduism and the Holy Spirit

Hindu Trinity: Brahma, Vishnu, Shiva

Brahma—Creator

Vishnu—Preserver

Shiva—Destroyer

Shiva is a destroyer in the sense of putting an end to that which is false in us, our false identification with form, of helping us shed unhealthy habits, attachments

Shiva!

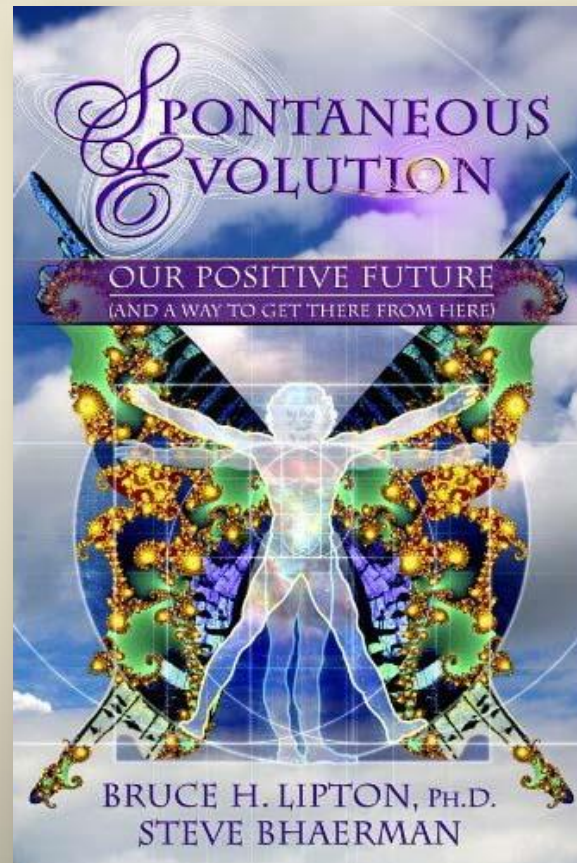

Quantum Physics and the Holy Spirit

Quantum Physics and the Holy Spirit

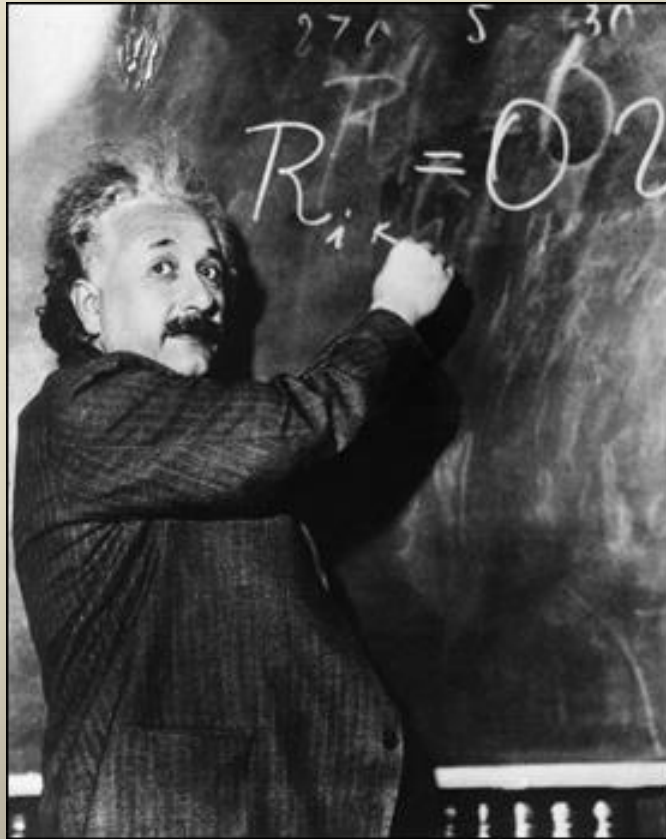

P. 95 in *Spontaneous Evolution*: Quantum physics has named the concept of an invisible energy matrix, “the field.”

P. 101, *Spontaneous Evolution*:

Einstein called *the field* the “sole governing agency of matter.”
In other words, it is the universe’s energy matrix that governs all matter.

He said, “There is no place in this new kind of physics both for the field and matter, for *the field* is the only reality.”

Authors Lipton and Bhaerman: “...the same characteristics as the invisible shaping fields ... metaphysicians define as “spirit.”

Bruce H. Lipton, Ph.D. —pioneer of the new biology. Author of *The Biology of Belief*, best-seller

Steve Bhaerman —humorist and cultural commentator. He has performed enlightened comedy as Swami Beyondananda for over 23 years. He is a transpartisan political activist.

The Dance of Shiva?

Pp. 104-106, *Spontaneous Evolution*:

“It isn’t the density of matter that stops us from putting our hand through the wall; it’s the density of energy! At the subatomic level, vortices [mini-tornadoes] of energy are constantly spinning and vibrating. ... You can’t put your hand through a solid wall for the same reason you can’t drive your car through a tornado.”

Zero-Point Field— A Quantum Physics Term for the Holy Spirit?

Journalist, Lynne McTaggart, author of *The Field: The Quest for the Secret Force of the Universe*: [This zero-point field is] “an ocean of microscopic vibrations in space between things—a state of pure potential and infinite possibility.”

The Morphic Field and Prayer

Rupert Sheldrake, contemporary biologist, parapsychologist calls zero-point “a *morphic field*—a memory inherent in nature allowing instantaneous communication psychically.” This explains to some degree why prayer works.

- Studies with AIDS patients and those recovering from surgical procedures proved that sending them healing intentions accelerated the healing process.
- Studies have shown “when the number of people practicing transcendental meditation reaches the square root of one percent of the population in a given city, the crime rate falls” dramatically.
- In the ‘90s a 24-hour prayer session using the science of invocation in New York City resulted in not one murder being reported to the police that day.

Message from the Blessed Maha Chohan

Through Amanuensis David C. Lewis

Delivered Feb. 4, 2014

June 6, 2013: “When you serve God within all, you serve all as if they are already fully God-in-manifestation. And therefore there is no sense of separation between self and other.

“You embrace the leper, even the lower nature of others, in order that the light of God flowing through you may help transform and heal yourself and others. That light vibrates at the same level within all, within the Higher Self.”
